PROFESSIONAL SUMMARY

Computer Science graduate seeking a Management Trainee role in banking and financial services, bringing strong analytical skills, ethical and honest judgment, and a collaborative, data-driven approach to solving business problems. Experienced in auditing financial and operational datasets, evaluating risk in classification pipelines, and communicating findings clearly to technical and non-technical stakeholders.

CORE COMPETENCIES

- **Analytical Skills & Risk Evaluation:** Applying strong analytical skills to evaluate risk, audit financial datasets, and catch structural errors, labeling flaws, and classification anomalies
- **Attention to Detail & Methodical Problem-Solving:** Processing, coding, and parsing complex, unstructured datasets using Python and SQL with a methodical, detail-oriented approach
- **Communication & Relationship Management:** Applying structured analysis and clear communication skills to resolve operational and technical issues while collaborating and managing relationships across technical and non-technical teams
- **Leadership Skills & Ethical Conduct:** Demonstrating honest, ethical, empathetic, and committed leadership skills in every project, with an energetic and assertive approach to problem ownership
- **Customer-Focused Business Solutions:** Identifying customer needs and translating technical and data findings into clear, customer-focused business solutions and recommendations for management

TECHNICAL SKILLS

- **Languages:** Python (Pandas, NumPy, data analysis libraries), SQL, C#
- **Tools & Frameworks:** Microsoft Fabric, Flask, Git/GitHub
- **Databases & Cloud:** MySQL, SQL Server, AWS (Cloud Fundamentals), Render

PROFESSIONAL WORK EXPERIENCE

Data Quality & Business Intelligence Intern

Safra Data School | May 2025 – August 2025

- **Data Auditing:** Audited, processed, and validated raw, unstructured financial and operational datasets, identifying and fixing structural anomalies to achieve 100% data accuracy across datasets for modeling teams.
- **Error Debugging:** Identified, troubleshoot, and independently patched high-priority data quality bottlenecks, formulating programmatic corrective constraints that reduced downstream validation errors and maximized dataset reliability.
- **Schema Mapping & Stakeholder Communication:** Authored technical documentation outlining validation protocols, ingestion schemas, and categorization rules, and communicated findings to instructors and management to streamline validation pipeline handoffs.

TECHNICAL & AI PROJECTS

AI-Powered Healthcare Insurance Risk Prediction System

- **Feature Engineering & Labeling:** Creatively structured data ingestion workflows, balanced sparse features, and managed cross-validation training loops to build a Logistic Regression model scoring 93% classification accuracy.
- **Dynamic Schema Adaptation & Risk Compliance:** Swiftly updated backend data structures mid-cycle to evaluate and incorporate complex, shifting national regulatory risk frameworks (SHIF/SHA), ensuring compliant, audit-ready training labels.

EDUCATION

Bachelor of Science in Computer Science

University of Embu — Graduated with Second Class Honours (Upper Division) | 2022 – 2026

Kenya Certificate of Secondary Education (KCSE)

Riambase Mixed Secondary School | 2018 – 2021

CERTIFICATIONS

- Business Intelligence and Data Analysis – Intermediate — Safra Data School
- Microsoft Certified: Fabric Analytics Engineer Associate (DP-600)
- Microsoft Certified: Fabric Data Engineer Associate (DP-700) — in progress
- Cyber Shujaa Program, Data & AI Track — in progress

PROFESSIONAL REFEREES

Paul Lumumba Arori

Senior Officer, IT Infrastructure Systems, Diamond Trust Bank

Phone: +254 718 960 880 | Email: arorilumumba@gmail.com

Dr. David Muchangi Mugo

Lecturer, Pure and Applied Sciences, University of Embu

Phone & Email: (provided upon request)
